ZIO Technologies, Inc., a minority-owned small business certified as 8(a) and HUBZone, specializes in delivering cutting-edge IT solutions tailored to align with client missions. Our experienced, multi-certified leadership team drives innovation and transforms IT landscapes for federal and state government clients.

CORE COMPETENCIES

CLOUD COMPUTING

- Cloud Architecture
- Multi-Cloud Strategies (AWS, Azure, Google)
- Infrastructure As Code & Automation
- Security & Compliance
- Cost Optimization

DEVSECOPS

- CI/CD Automation
- Containerization & Orchestration
- Secure SDLC
- Compliance & Observability
- Infrastructure
- Zero Trust Security

SOFTWARE ENGINEERING

- Scalable APIs & Backend Systems
- Microservices
- Secure API Development
- Real-Time & Serverless Solutions

DATA MANAGEMENT

- Data Architecture
- Governance & Analytics
- ETL/ELT Pipelines
- Data Warehousing
- Data Security & Compliance
- Master Data Management (MDM)

ARTIFICIAL INTELLIGENCE / MACHINE LEARNING (AI/ML)

- AI-Driven Insights & Predictive Analytics
- ML Model Development & Deployment
- Natural Language Processing, Chatbots & Computer Vision
- AI-Powered Automation & Process Optimization

IT STAFF AUGMENTATION

- Rapid deployment of skilled professionals
- Access to diverse specialized talent
- Cost-effective hiring alternative

PAST PERFORMANCE

Social Security Administration (SSA): Providing IT modernization support and resources for Data Governance and Application Development.

Office of Personnel Management (OPM): Managing the modernization of the retirement services claims adjudication application and coordinating human-centered design research to prioritize OPM modernization initiatives.

Substance Abuse and Mental Health Services Administration (HHS): Provided AWS cloud infrastructure for hosting migrated applications, ensuring high availability, cost-effectiveness, and redundancy.

Maryland Judiciary: (State of MD): Delivering Network Security Engineering services, ensuring secure operations for essential judicial functions.

Maryland Health Benefit Exchange: (MHBE, State of MD): Providing comprehensive software validation, testing, and automation services to ensure system reliability.

SK Net, LLC: Supplying technical resources and full life-cycle support for HR and Workday HCM implementation for State of MD.

IBM (Delta Airlines): Assisted IBM Cloud team with application migration and modernization using AWS architects' expertise for Delta Airlines
